THE PURPOSE OF THIS BOOK.

* * * * *

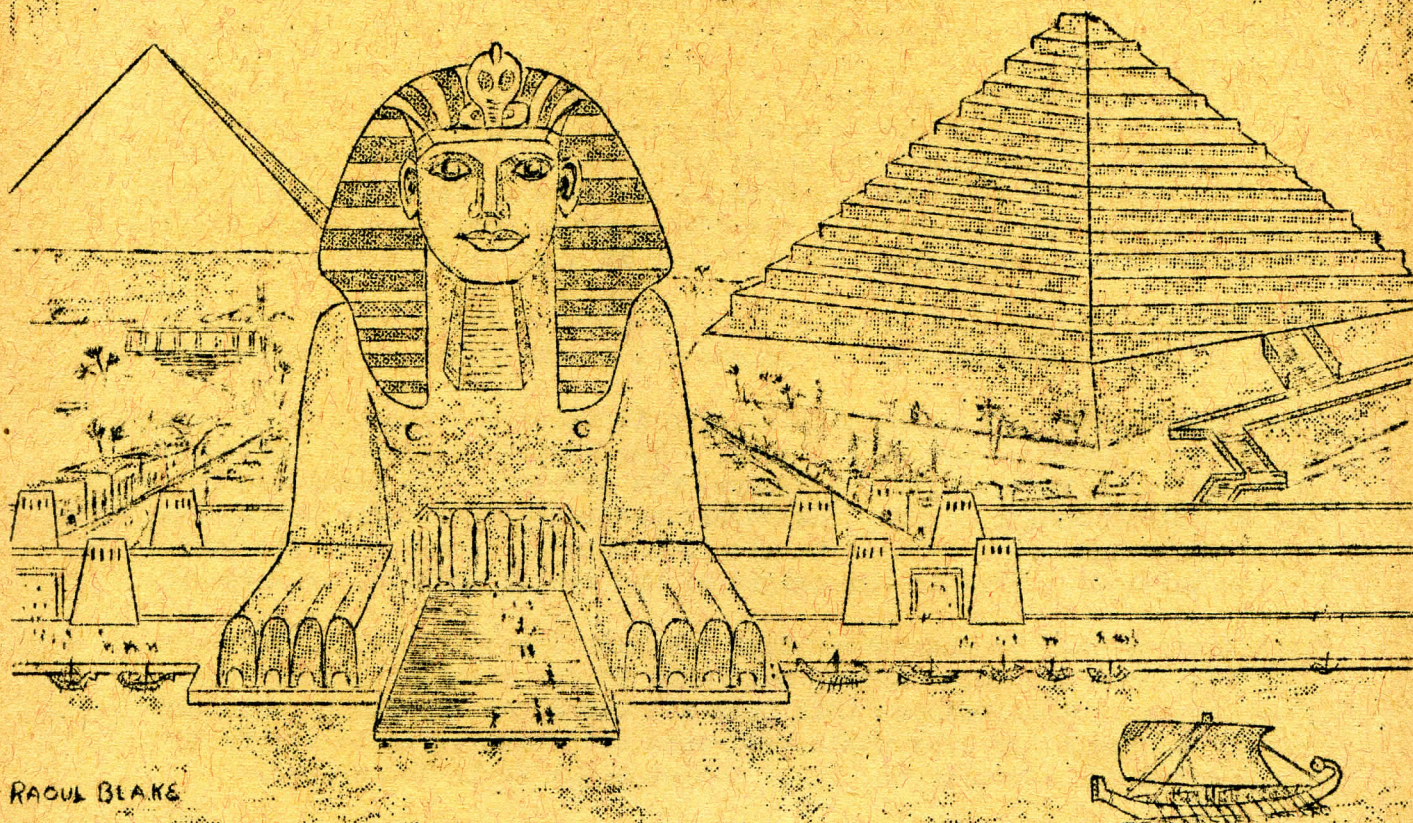

I FEARED THAT SHOULD I HAVE CALLED THIS PAGE AN "INTRODUCTION" YOU WOULD have instantly turned to the page with the first picture and started reading. So many people regard introductions, prefaces and forewords as very unnecessary evils---and thereby prove themselves poor traders. For often in the Introduction there is contained a review of the entire book which, in terms of time and energy, might repay the reader far more than running over every page in the rest of the book. But perhaps you are now in pain. If so, you will probably be willing to read every part of the remedy in hopes of being able to distill a healing potion from its pages, somehow.

I can give you, in a few simple words, the reason for your every ache and pain. And in a few equally simple, but utterly profound, words I can give you the remedy for your every ache and pain. But because most of us are so conditioned by our highly complex civilization, it is almost impossible for us to understand a simple remedy, even though we grasp for it. Hence, I have had to spread these magnificent points of perfect healing through the pages of four short booklets---in order to satisfy that part of your mind ever needing endless detail and evidence before it will let go, and let God.

There are two great Statements of Being which your mind must understand, rationalize and blend into an indestructible unity. The single and only reason and cause for any pain or illness in your human body lies in the confusion of the mind-within-that-body between two Points of Consciousness. There are two eternal principles of creative evolution upon which "God" has built His Humanity. And until these two Principles are understood, and balanced, in our mind and soul, we will forever suffer pain and death as mortal men have since the hour of their departure from The Garden of God.

Ever since our departure from this state of Paradise there have been magnificent hands held out to us down the long, long path of evolution. These Hands have been much better known in those ages of which history is able to make no mention, than are we in this prophetic age of The Last Days. Yet for the very reason that these are "The Last Days" These Mighty Hands are reaching out to us as never before---in the hope that we will have the sense to grasp Them and hang on, even though we do not understand Their meaning.

In the pages to follow there is a brief summary of the Twelve Cosmic Temples, Divine Hands of Health and Harmony, Which are offering to Mankind the Final Chance to grasp Them. We may grasp Them with utter desperation, our last sign of despair. Or we may take them gently, but firmly, as the child clasps the strong hand of its father---knowing that in Him there IS Peace. And all those things which, as human beings, we consider so necessary, so important. However we take these Hands of Heaven, HOLD FAST, tarry not, nor look back, and The God of your Dreams will prove to be the Angelic Hosts of the New Age.

EVERY STUDENT OF THE ANCIENT MYSTERIES IS INSTANTLY DRAWN TO THE FABULOUS AND legendary land of Egypt. No one escapes the fascination of this exotic land of the pyramids, the pharaohs and the sacred Nile with its eternal pageant of death and birth. The records of archeological investigators are frequently most inaccurate and incomplete, even though these inspired students are often armed with scientific apparatus for checking and analyzing what they dig up. The age of the Great Pyramid, for example, is given variously as 4000, 10,000 even 50,000 years by the men of science who have studied it. Yet the Student of the Egyptian Mysteries knows that this incredible monument of stone must be at least one million years old---if it is a day! There was a time, not very long ago, when the sides of this great temple were covered with a thick layer of pure marble, making it impossible for even a tiny bird to perch upon such a smooth, shining surface. There are tales of how the sun beating down in its furious heat against the smooth, polished marble sides of the Pyramid caused a reflection to be radiated over the length and breadth of the Great Sahara and acting as a giant beacon to direct the weary pilgrims over the treacherous sands and stunted shrubbery. It is stated by many scientific circles that the Great Pyramid has been under water several times. These investigators say that the surging tides of the seas left huge scars which can be seen to this day upon the sides of the Pyramid. In almost every important world religion mention is made of this "Bible in stone," this "Temple not made by human hands." Some are convinced that when we look upon the Great Pyramid we actually are looking upon the original Tower of Bab-El; and probably there is no other monument or edifice which answers so nicely to the legendary Bab-El of so many Scriptures as does this mysterious mountain of granite in the heart of Egypt. Today, great events are taking place within and around this inscrutable Light this immemorial tomb of the Ancient Mysteries of the kingdom of Sut-Typhon.

THE HALLOWED COMPANY OF SPIRITUAL POWERS WHO DAILY SEND THEIR RADIATION of Cosmic Forces around the globe make it possible for every living thing to breathe the Waters of the Living God which flow through all Substance. Were it not for the Divine Kher-Uphs, the Cherubs of the Bible, it would be impossible for the Spirit to move through our bodies. These majestic Beings exert a tremendous force which helps to keep the very earth in its celestial orbit. This force has been termed Crystallization, Condensation Solidification. It is basically the energy which radiates through every cell of our bodies and holds them together as a great fleshly unit of Life.

When this Divine Creative Force of Crystallization falls out of balance, out of rhythm, in our bodies---we become ill to the point of physical death.

This Supreme Principle of Crystallization is under the direction and operation of the Planet we now call Saturn. The ancient Egyptians knew this Planet, and its Principle, as Sut-Typhon, the Dreaded. So great was their fear of Sut-Typhon, or Saturn, the Mosaic peoples closed their businesses locked their homes and refused to step out into the streets on the Day of Sat, or Saturday. This is the origin of the Jewish Sabbath, or Saba-Oth.

These ancient peoples understood that too much Crystallization, too much Solidification, too much Saturn, was fatal to any living thing or body. Hence they sought to balance this terrific energy of density by withdrawing from all activity over their week-ends and endeavoring to use up whatever surplus of Saturn's Rays their bodies might still be holding.

Christianity, taking over most of the so-called Pagan ideas, modified Saturn to Satan, the very antithesis of the Sun, or the Christ, and made of this sublime creative Principle the frightful thing we today call the Devil.

Saturn, or Satan, moves through the Root-Center, the Sacral Plexus at the base of the human spine. The Sun, or the Christ, moves through the Center at the top of the human head. Hence, the supposed rivalry between these two Cosmic Principles is easily explained. The Great Principle, the Cosmic Idea of Creation, or Ideation, emanating from the Sun as it moves through a highly complex set of nerves in the top of the head, must be balanced each minute by the Cosmic Idea of Crystallization or Solidification emanating from the Root Center of Saturn, or Satan.

When this balance, this rhythm, is destroyed or upset serious illness begins to manifest through the entire human form. One of the most prevalent, and painful, maladies resulting from too much crystallization (or Saturn) is a disease which attacks the joints of the bones, Arthritis. The frightful scourge of Paralysis, or Polio, which is increasing with alarming rapidity throughout the globe, is also another of Saturn's diseases of im-balance. So too is that strange sickness in which the muscles collapse and refuse to support themselves, a Saturn ailment which is becoming another of the very dreaded diseases of our modern Uranian civilizations.

ALL MALADIES WHICH ARE CHARACTERIZED BY THE HARDENING PROCESSES WHICH, IN time, produce sufficient crystallization to cause physical death, emanate from the Planet Saturn as it operates through the Center at the base of the human Spinal Column. The Rays of Saturn are also prevalent in the feet, particularly in the bones of the arch, and give rise to a great and highly complex series of infirmities and irritations which are often most difficult to trace to their source.

The Cosmic Authorities of our world follow a remarkable time-table which the serious Student can study and often either completely avoid or greatly minimize the discordant Rays of Saturn as they move through his own body. (However, these Rays will be discordant ONLY if there is a lack of balance between the Seven Sacred Centers located in his Spinal Column.) This time-table is fundamentally concerned with great groups of people, rather than with individuals. At one time or another every nation comes under strong radiation from the planet Saturn. This radiation will enter the physical forms of all living things, human and animal (even plant and mineral) according to a scientific pattern which is focused in the Root Center or Saturn Area of that form. No being, conscious or unconscious, escapes Saturn.

Fortunately for all Mankind, and indeed for all Life upon our planet, Saturn will project its Rays upon us only at a certain time of each day, allowing long periods of rest and absorption between projections of the Astral Power.

The time, according to our clocks, of Saturn's projections is in the early hours of the morning, from three to six; and in the afternoon, three to six. Saturn is the only Ray which has two periods of projection. The hours of early morning are for the proper purpose of renewing our flesh bodies during our sleep, and for implanting certain Astral Forces as deeply into our Sub-conscious Mind as possible. During this period our personal habits, our beliefs, our tendencies and special characteristics are nourished and intensified by the crystallizing Rays of Saturn. And these hours from three to six in the morning are extremely important to the Student trying to become more conscious of what he does in the Astral Planes during sleep.

One of the Great Points in the New Age Wisdom, which may cause Students some measure of confusion to properly understand it, lies in the remarkable connection between the Planets and the Centers and the Nations of the Globe. It may at first be difficult to grasp the Cosmic System of Universal or Planetary Centers within the globe itself, but this is necessary at least from an intellectual or theoretical standpoint---if the Student is to gain the fullest possible benefit, the completing healing of his own flesh body.

The Student must know something of the sources of his Life---if he is ever to learn how to control and direct these sources. Where, for example, come those constant pulsations of Life which beat his human heart and send the blood coursing through the millions of arteries and veins hour after hour? Where comes the automatic impulse which moves his lungs, bringing into his body a vast collection and combination of gases which actually 'run' his body? These are the questions we shall try to answer in the following pages.

IN THIS MATERIAL WORLD WE ARE ALL FAR MORE A CREATURE OF TIME THAN WE realize. We are willing to recognize the element of time as a basic and highly useful convenience of our material activities; but how ignorant of Time as a Divine Factor in our actual living and breathing we all are!

Time, as such, will assume an entirely different character once we begin to grasp the Etherian Principles of Rhythm as manifested in the daily schedule of the Planetary Vibrations. Our time-pieces will then become something far superior to the heartless dictators they are today in all the many activities of our personal, and impersonal, affairs. And Time, in a remarkably literal fashion, Time will become Life to us.

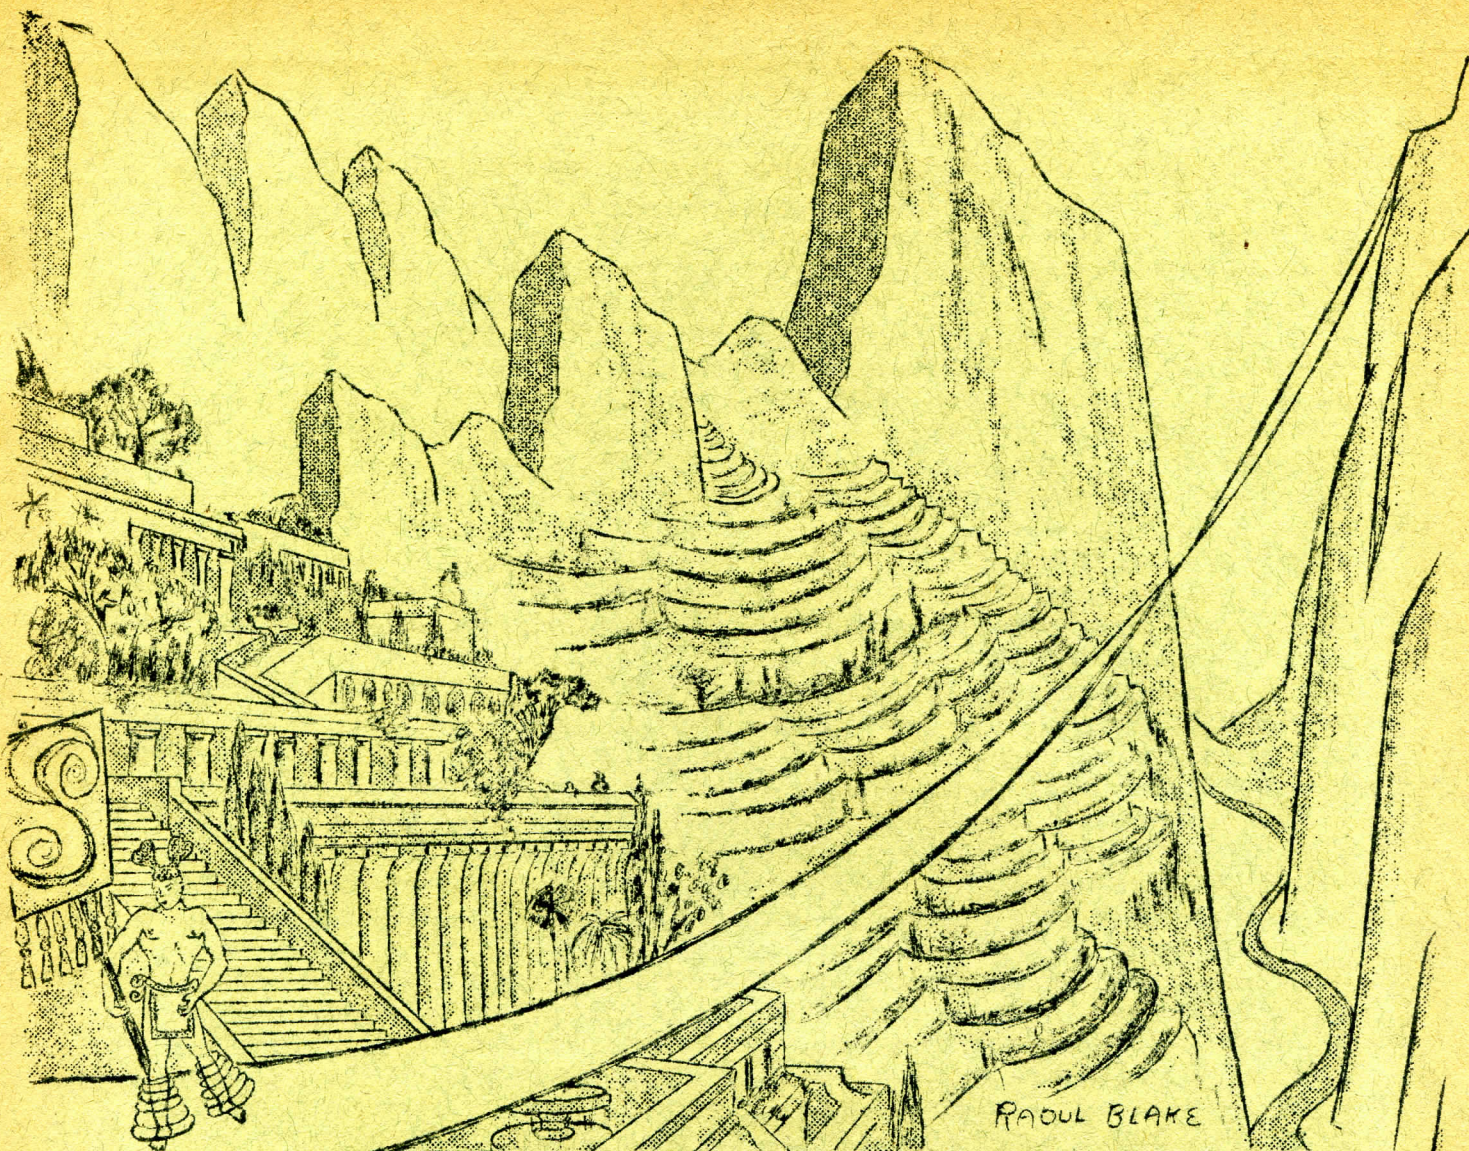

Time will also become health and strength and wisdom and all of those many things which Students of the Mysteries have ever sought---usually in vain. Time will have become Consciousness. Indeed, we shall have become Time; eternity will be a tangible part of our beings, and the past and the future shall have, as the philosophers predict, have become one, the Eternal Now, the Absolute Instant, the Only Reality.

And these words are not to be read as a mere repetition of the thousands of words already written about the non-existence of past and future. For, in the most literal, actual, definite meaning of the words, Now shall surely become the only and eternal moment of Consciousness, or Time, which we, in the Higher Etherian States, will know.

The Great Guardians of Mankind, operating in the invisible Etheric Levels, are bringing to us a gradual comprehension of Their state of existence as Beings of Time in an almost incredibly literal degree. When Those (of the Teachers from Etheria) Who have cared to speak intimately of Themselves, say They have lived for fifty thousand years, even a hundred thousand, They are stating a literal, actual and specific Truth. It is NOT symbolic in even the slightest degree. They HAVE been living, consciously, as the same Personality, for times as long as these---and even longer.

Now there is a vast difference between living as a spirit, a disembodied human, in the so-called spiritual planes for a million years---and living over such vast periods as a Being, an Inhabitant of the Planes of Etheria. Someday you will comprehend this, if only theoretically. It is important, indispensable to a correct and complete understanding of just WHAT is an Etherian, a Man of Etheria, the Worlds of Eternality, true Immortality.

The first step we must take toward our eventual grasp of these amazing statements, if only as a theory, is to familiarize ourselves with the very occult, or hidden, nature of the Center at the base of our human spines. We must begin to grasp something of the special character of Saturn as the crystallizing, solidifying Principle of Eternal Consciousness, of Immortal Life. We must turn to "Satan," the most abused of all metaphysical ideas and religious systems of personal redemption and Individual Resurrection.

IN THE IMPASSABLE SNOW COVERED SUMMITS OF THE GREAT ANDES lies a veritable treasure house of the ancient civilizations which peopled the gigantic lands of South America. Legends without end have told of these fabulous treasures and hinted at the terrible powers of Nature that guarded them from the profane hands of the uninitiated. What Egypt and India are to the Oriental world; what Jerusalem is to the Mosaic people, so is Yin-Cah to that extremely exclusive world of the Occult Seeker. And not without a magnificent reason. For the Andes Mountains of Peru shelter a fascinating secret, and jealously guard their rightful riches with a terrible battalion of natural forces which few human mortals have ever successfully challenged. High in the Cordilleras, those snow-covered peaks of the Andes, the sublime Rays of Jupiter are said to gather and hold Olympian courts as of Old. High in this gigantic fortress of PHER-RU stands one of the oldest and most fabulous of the Twelve Temples of Truth erected for Humanity in the misty ages of its childhood. No one can accurately estimate in terms of years, or even centuries, when RHO-TIA, the Temple of Jupiter, Zeus-Pater, was carved out of the titantic rocks of the Andes and prepared as a center of the Great White Brotherhood of the Atlantean Peoples. Its age far antedates Asia and Europe and rivals that of Africa, the great sister-continent of South America. There is an almost impenetrable veil of mystery that silences every echo of those ancient days when Rhotla was queen of the Land of Atlan and its peoples. Even today, Peru and its silent In-Cah ruins is the "last outpost of mystery."

WE ARE INDEBTED TO A PAIR OF INTREPID YOUNG SCIENTISTS FOR PROOF OF SOME thing which our modern scientific authorities (including our historians) had refused to even consider. Occult sources had claimed that the dates given to the civilizations of Central and South America were considerably inaccurate; but such claims were impatiently brushed aside by so-called specialists in archeology and its related studies. And the public was informed that the Yin-Cah civilization, for example, was only about a thousand years old. Then with the brash disrespect of youth for established ideas the two boy-explorers mentioned above succeeded in having the date of a volcanic eruption placed at around 25,000 years ago---by our respected geological scientists. Then, after cleverly concealing their real purpose, these youngsters revealed that they had discovered the ruins of an ancient city UNDER the lava beds. Hence, with devastating logic they proved that scientific "authorities" are often most inaccurate in their conclusions as to the real facts concerning many things of the past ages on our earth.

Modern academic science knows nothing of the history of the Twelve Temples of the Gods of our solar-system, and little of the nature of these mystic storage-plants of Cosmic energy. However, since such scientific circles have again and again proved their chronic tendency toward bigotry and dogmatic declarations founded upon absolutely nothing but a conceited human being's notions of what is or is not accurate---we need not concern ourselves for a moment about this ignorance of modern science when it comes to such philosophical matters as Cosmic Centers of Planetary Consciousness.

It is suspected by many worthy scholars that the jungles, forests and huge impenetrable wildernesses of Central and South America hold such secrets as would surpass any fiction tale. However, most of these students and professors of ancient history suppose that only the ruins of once-great civilizations will, eventually, be found. And in this they err profoundly! Various companies of explorers, scientists and mercenary adventurers have vanished into the silent gloom of these vast areas, never to return. Yet this seems only to excite the pioneering spirit of many others who believe, foolishly, that they will succeed where the others have apparently failed.

What does exist in these remote places, almost inaccessible to human beings? What does the Student of the Occult Mysteries actually know of this area? And have The Etheric Guardians, the Peoples From Outer-Space, any connection with these fabulous rumors which almost every thoughtful student of the New Age has heard about? Many of these questions can now be answered in some detail. But the very nature of the answers will be in itself so unusual it is highly unlikely that much of these secrets will be understood or even accepted by the average student---let alone the average earthly citizen.

South America now attracts many visitors who would have gone to Europe had not the coming of the air-ship opened up this great southern continent to the average man. And The Coming of the Space-People, the Flying Saucers, is to have an even more remarkable effect upon the tourist trade to the cities of Latin and South America in the vicinity of the Mystic Temples of Etheria.

OUR HUMAN BODIES RECIEVE THE DYNAMIC GREEN RAYS FROM JUPITER OR ZEUS-PATER in the region of the Spleen, on the left side. The particular period of the day when Jupiter's rays are being projected by Rho-Tla, the Temple in the Andean mountains, is from nine to twelve midnight. These are evening hours in which the jovial spirit of Jupiter has its best expression in our human affairs. It is the period of Expansion, in direct contrast to the period and principle of Crystallization, projected by Saturn.

Those infirmities and diseases of the human body which are the result of too much substance spring from an imbalance of the Rays of Jupiter. Those ills which are marked by swelling and distention, growth, tumors and the like, derive from an irregular pulsation of the Jupiter Ray through the Spleen.

The Rays of Jupiter produce an exactly opposite effect from the Rays of the Saturn-Principle. These two principles have often been explained in many occult systems as the Law of Attraction and Repulsion; the Positive and the Negative; the Masculine and the Feminine. But few if any of the students following these systems have anticipated the fabulous properties of these two antithetical Energies---else they would long ago have reached the perfection of body and mind which only the "Masters" are thought to possess.

Expressed in the simplest possible terms, this constricting and expanding principle of Saturn and Jupiter make possible every process of mechanical action we employ in our modern civilization. Within it lies the secret of electrical force, and the resulting conveniences and comforts which such a magical energy bestows upon all of us.

In the mysterious interplay of Energy between Jupiter and Saturn lies also the secret of the amazing motive power of the Aeroforms, the Flying Saucers.

The occult processes of materializing and de-materializing are the processes of Cosmic Principles emanating from Jupiter and Saturn. The alert mind seeking to master the technique of visibility and in-visibility should look immediately into the rather considerable knowledge astrologers have collected concerning these two planetary vibrations.

There are two fundamental activities manifesting through every human form. These activities are hostile to each other; each seeking forever to dominate the entire body. One is the Principle of Life, or Creation, controlled and inspired by Jupiter through the legendary Temple of the Andes. In the marrow of our bones embryonic cells of Life are brought into being by the benevolent, expansive, accumulative Rays of Zeus-Pater, our Father-God.

These cells of Life eventually pass through the tissue of our bodily organs only to reach the outer skin, or epidermis, from which they are expelled much like the effervescent particles of soda-water. If more of these elemental cells are destroyed by the crystalizing pressure of Saturn, than are created by the expansive principle of Jupiter---our bodies wither and die. When we have learned how to balance these two Cosmic Activities at will, we have learned the secret of Eternal Life, Perpetual Youth, Endless Consciousness!

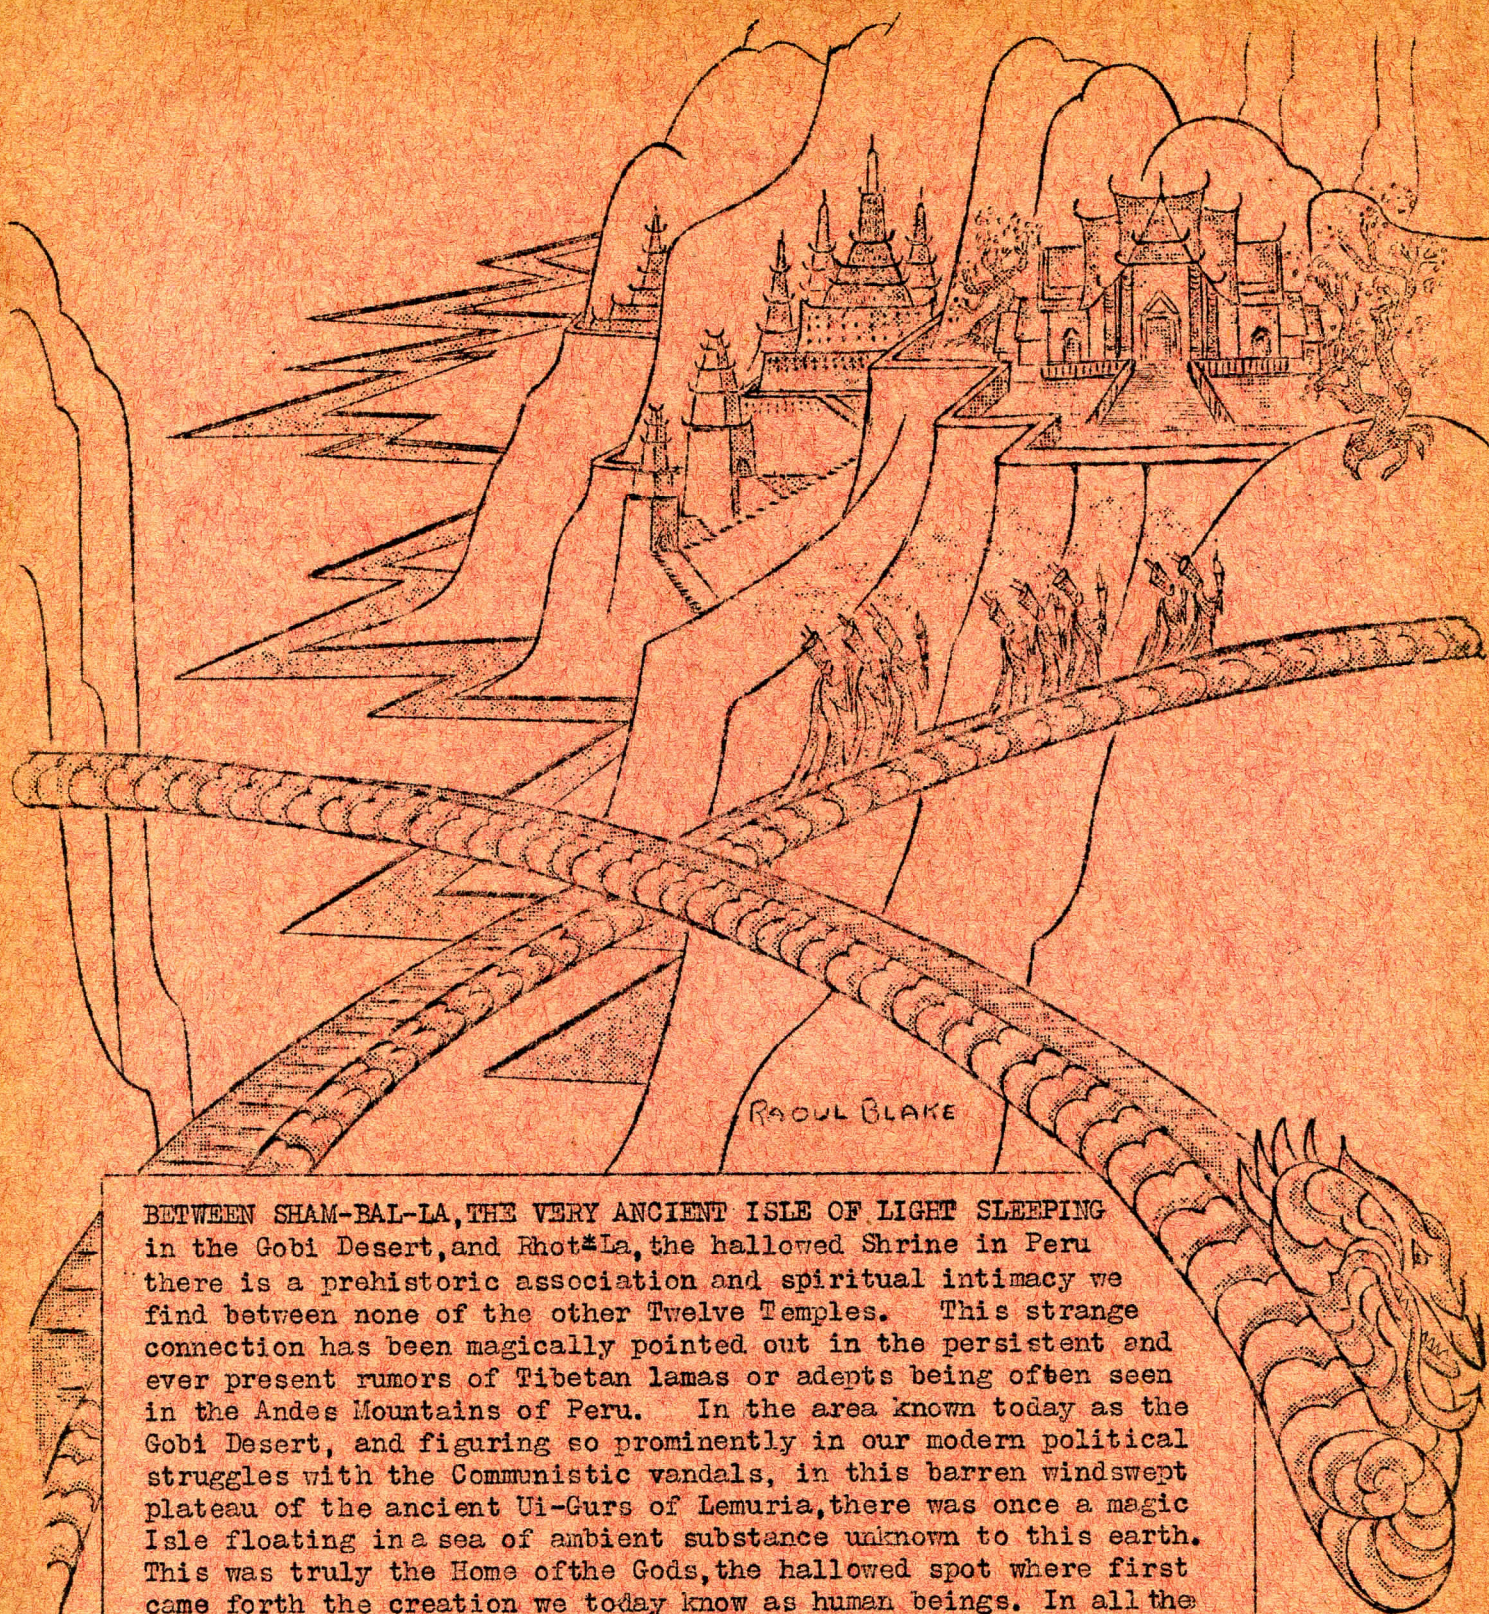

AT THIS MOMENT, UNDER THE CREATIVE, EXPANSIVE RAYS OF JUPITER, MILLIONS OF cells are springing into Life throughout your flesh body. And under the terrible solidifying Rays of Saturn millions of these cells meet sudden death. Thus we are in a constant state of birth-and-death. Eventually, in the case of most human beings, Saturn will gain the upper hand and forever still the creative effervescence of His deadly rival, Jupiter, Father of Life.

The Master, the Rishi, the Mahatma, the Adept to use Theosophical terms, is one who has learned how to successfully play one force against the other; to counteract the crystalizing process of Saturn by increasing the creative or expansive process of Jupiter. And to avoid disaster from too much Jupiter development, the Master, with brilliant skill and technical control, steps up the restraining force of Saturn.

In Etheria (The Realms of the Adept and Master) all forms are controlled through this dual process, including the bodies of the people inhabiting the Upper Ethers. For millions of these beings the process is apparently an automatic, or unconscious, one--since it is under the direction of the Great Guardians of those civilizations. This is a condition not wholly unknown to our earth and its history. It is suggested in the legends of the Hindus whose Manus, or Law-givers, established the standards of prehistoric nations and aided Their peoples to carry out several specialized evolutions. In the mystical book by Phyllos, the Tibetan, "A Dweller on two Planets," this strange procedure is explained somewhat. And in our booklet "Whom the Gods Destroy" it is further explained.

Currently available to the public are various accounts of personal contacts with The People of the Saucers. There is usually to be found one being or individual who is the leader of the aeroform. This dignitary is usually, if not always, surrounded by a crew or retinue of beings which do not possess the authority or the knowledge generally accorded by us to a director. When we have had more opportunity to study these experiences (which are daily growing more prevalent) we shall learn that the crew of these Space-ships are held in the complete domination and control of their Masters or captain. This is essentially a mesmeric control---but it is a willing one, a condition gladly accepted by the crew, since the Master or captain is actually giving His people what amounts to eternal life and health. This is done by the captain as a reward for their services on the ship or etheric-vessel. It is done through the skillful balancing of the Rays of Saturn and Jupiter for each of these inferior beings by their Master.

Finally, the appearance and disappearance of the Saucer itself is deliberately controlled by this same magical power of the Captain or Leader of the Ship. This illumined Being, not a spirit as we understand the term, this Captain is able to raise or lower the speed of the metallic particles of the Saucer as we are able to speed up or slow down our breath! When we have grasped the simple economy of Jupiter-Saturn pain, sickness, eventually even death, vanishes!

BETWEEN SHAM-BAL-LA, THE VERY ANCIENT ISLE OF LIGHT SLEEPING in the Gobi Desert, and Rhot#La, the hallowed Shrine in Peru there is a prehistoric association and spiritual intimacy we find between none of the other Twelve Temples. This strange connection has been magically pointed out in the persistent and ever present rumors of Tibetan lamas or adepts being often seen in the Andes Mountains of Peru. In the area known today as the Gobi Desert, and figuring so prominently in our modern political struggles with the Communistic vandals, in this barren windswept plateau of the ancient Ui-Gurs of Lemuria, there was once a magic Isle floating in a sea of ambient substance unknown to this earth. This was truly the Home of the Gods, the hallowed spot where first came forth the creation we today know as human beings. In all the Ancient Scriptures, the Secret Scrolls of the Masters, we discover the same story: The Coming of the Holy Khu-Maras, from Mars, Lords of the Sacred Flame of Personal Selfhood. There are times when the atmospheric currents of the Gobi Desert are properly blended with the Etheric Tides of the Akasha (Eternal Light) and for a little while the desolate wastes of this inhospitable wilderness return to their former glory. Travelers experiencing such a magnificent spectacle suppose it to be merely a freak of nature, a mirage.***

ONLY THE TRAVELER WHO HAS HAD THE GOOD FORTUNE TO ASCEND THE SUMMITS OF certain great mountains of the Hymalayas and look down into the hidden valley made famous by Lost Horizon and its Shangri-La, only such properly visualize the grandeur and splendor of the ancient Shrine of SHAM-BAL-LA.

Now there are far more travelers visiting this mystic Shrine than might be supposed---for there is such a thing as Astral Flight. At a certain time of each year, the huge jade gates of SHAM-BAL-LA are opened wide to receive every visitor who can approach its snowy summits and demand entrance. And to that rather large company of students who travel, consciously or otherwise, in their finer vehicle of astral substance, admission into this magnificent Retreat is simple and prompt.

However, a certain degree of Self-consciousness is required to make this visit to one of the most revered of all the Temples of Light on our globe. It is the consciousness of personal identity, the awareness of being more than a member of a tribe, a unit of a national family, a cog in the great Wheel of Mortal Consciousness as are the vast, vast majority of human beings.

From Mars, the Ruby Ray, we receive a unique gift, the gift of Personality. Mars gives us a name, an identity, a specified focus of self-awareness. So for this very reason we find the great dictators, tyrants, warriors and men of distinction strongly under the Ruby Rays of Mars---and Lucifer, He of Biblical fame Who challenged Michael, Archangel of the Sun.

Lux-I-Fer, He Who Brings Light (as well as Iron, fer) wished to give to a certain portion of Humanity, living within the Garden of Eden in a deep sleep or trance, the same quality of Self-awareness which He and His own People possessed. This plan was opposed by Michael, Regent of the Sun, in the belief that Mankind was not yet ready for such power and potentialities. Hence we read of the "War in Heaven" in the Mosaic Scriptures. Today, in our modern Christian theology we find Lucifer regarded as another name for---Satan, the Evil One. This is typical of Christian absurdity and ignorance concerning the real meaning and purpose of nearly all the great Cosmic Principles. It was to endow us with Self-consciousness, with Sense-awareness, that the fabled conflict of the Angels and Archangels began in the highest planes of our planet. And this conflict still rages! This is a point of greatest moment! We are still struggling to throw off the terrible pressure of a Universal Force, the mesmerizing power of the Sun and its Rays. With the assistance of Lucifer, and His Rays of Personality, we are daily, hourly, momentarily resisting the full weight of the Mass Consciousness, the hypnotic impulses from the Sun---or we are daily, hourly, momentarily falling victims to the surging tides of Mass-belief, Mass-emotion, Mass-exhaustion!

This idea is NOT a symbolical one; nor is it a poetical allegory. It is a most literal fact, an exact truth. And if you fail to recognize it, you are doomed to the treadmill of life and death, down through the unborn, unknown ages of time---until you DO recognize this truth, and realize your absolute slavery to the Universal Principles of the Masses is the one, the only reason, why you must struggle and suffer and die as a---human being! If you wish to become more than a human entity, then you must learn how to neutralize the dynamic magnetism of the Sun and its hypnotic influences.

IF YOU DOUBT THE TERRIBLE, REDUCING POWER OF THE SUN, THEN LOOK UPON THE vast deserts of our globe. Unless you have studied a map of our planet you will have no realization of how MUCH of it IS prostrated under the destructive rays of the Sun. (The mystic nature of the Sun will occupy the final chapter of our study of the Great Temples and their Rays.)

Let us return to Mars, the Solar-plexus Center behind the stomach, and see what it has to do with our Personality. Nine-tenths of Humanity are now under the direction and control and influence of the remaining tenth; the men and women who are strongly under the influence of Mars and Lucifer, its Regent. This is a simple fact which can be demonstrated in a few minutes by simply reviewing the activities of Mankind throughout the land.

In various Occult Scriptures Lucifer is said to lurk within the blood of human beings. In more technical terms we often read that the blood is the vehicle of the Ego, the instrument of Self-consciousness. What does this mean? Iron is traditionally the metal of Mars, according to most systems of occult study. Lux-I-Fer is a Kabbalistic combination of the several aspects of 'Magic' contained in the magnetism of Mars. It may be loosely translated as He Who Brings The Light Of I, or Ir. Thus far from being the Devil, far from being any sort of dark demon, Lucifer is one of the Mighty Cosmic Principles Who is endeavoring to bring us the Knowledge of Good and its Opposite, or the Light and the Shadow, Life and Death.

As every astrologer will attest, the position and power of Mars in the Horoscope immediately reveals a wealth of information about the character, consciousness and tendencies of the person concerned. No one ever rises to a point of prominence and power unless Mars is able to project through his consciousness a dynamic stream of His Specialized Force, His Ruby Ray.

Specialization is a key-word of Mars; so too is Identification. YOU, is another code term for Mars, for the moment the human entity begins to become conscious of himself as a separate unit within the aggregate, within the whole---at that moment YOU and Mars are synonymous. And, also, at the same moment you begin to become YOU, the consciousness of a separate and sovereign identity produces pain, conflict, struggle---eventually death, if it is not properly balanced and modified by the other Cosmic Rays.

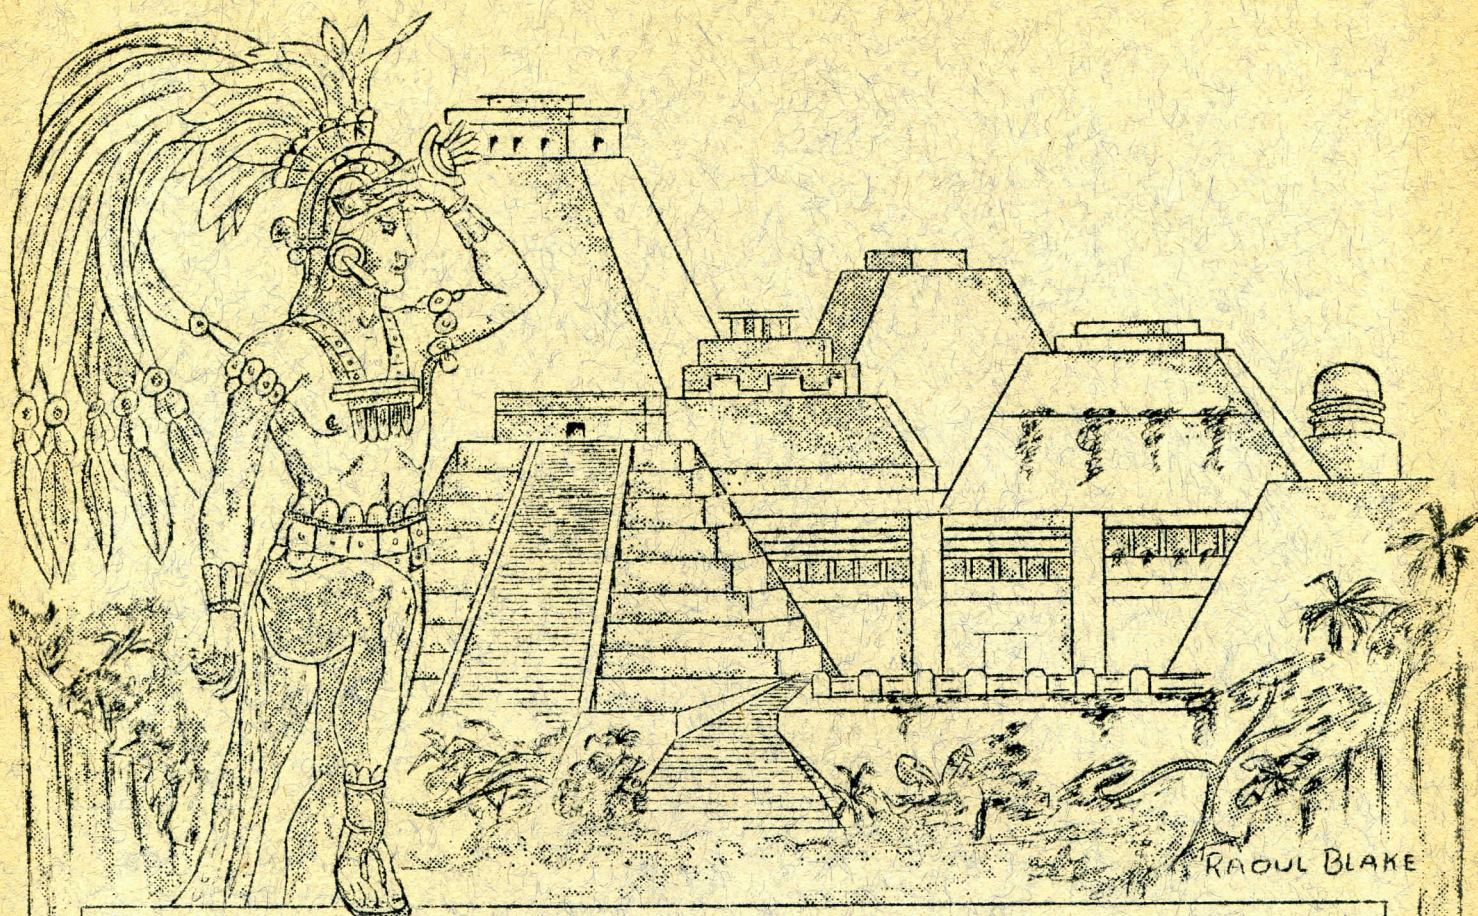

The diseases of Mars are manifold and, at times, extremely subtle and most difficult to identify. Now since Mars has such tremendous influence within the human blood-stream, it follows that the properties of Jupiter and Saturn will also be vigorously modified in their normal action through all cells of our flesh forms. More than any other catalogue of infirmities, the diseases of Mars surrender most dramatically and quickly to the subtle suggestions of religious or devotional dogmatism---the Sun and its Pattern! More human pain is dissolved by belief (acceptance) in the supreme power of God (irresistable authority) than by any other process of adjustment;---only because more human pain is caused by self-will, egoism and conceit (all the reactions of Mars) than by any other element of human nature! Surrender to God, to a Superior Force, is an indispensable requisite for any healing. (The Superior Force may be his own will, if man so chooses to believe.)

THE LEGENDS ASSOCIATED WITH SHAM-BAL-LA ARE FANTASTIC IN THE EXTREME, as might well be expected in a land which has seen the First Coming of Man as we know men today. The fabulous Magic White Island floating in a sea of shimmering etheric substance is a sight not entirely unknown to explorers of this modern day who dare to venture out across the trackless deserts of Gobi and Khar-Tuom. It is a sight however, which usually leads the witnessing mortals to conclude it can not possibly be anything but a mirage, a glorious illusion somehow contrived out of the magic of nature's capricious moods. Another incredible illusion, another magic mirage, are the weird ships of the gods for which even the natives have no explanation. These astonishing vessels of the skies frequently stampede the camel caravans plodding slowly over the endless deserts of the ancient Ui-Gurs; and the Mongolian tribesmen huddle in their tents fearfully awaiting the Coming of Maitreia, or even the Great Lord Bhutti---for Who else could have so strange a retinue sailing the heavens before Them?

SHAM-BAL-LA, the Blessed knows these heavenly visitors for what, and who, they are. This ancient Temple has often, over the ages, been host to the companies of illumined peoples visiting our earth for various purposes. Indeed, in the minds of most serious students of the occult, the Trans-Himalayan Brotherhood stands at the zenith of spiritual grandeur and individual unfoldment as Lords of the Ancient Ambient Light. Hence, it is very strange that these same students should either wonder or doubt that the Princes of Principle, from other planets, might choose to make Their Presence known in strange and dramatically effective fashion. After all, a Master IS a Master; one endowed with transcendental faculties surely, yet not indifferent to the advantages of mechanical transportation from world to world. Then there is the legend of the Oriental Napoleon!

Could not these People from, apparently, outer-space qualify as the forerunner of this long-prophesized Advent of Aquarius? Mars, in the minds of most students, is intimately connected with struggle and strife, even death itself. Is this the Return of Lucifer, in a fiery chariot????

The solar-plexus center of Mars is traditionally connected with our faculty of sight. It is also the center through which every leader, king, man of authority, and religious dictator dominates his followers or flock of passive human minds. Every medium has experienced the pulsations of the psychic currents through the solar-plexus. It is against this sensitive area of Mars that all psychic attacks are made--whether they be from the apparently harmless commercials we hear over radio and television; or a more serious conspiracy against our free-will and personal identity by the demagogues of religion and metaphysics. Thousands of people are now suffering from pains and ills they cannot diagnose or dissolve. Much of this discord is resulting from the widespread misuse of the Mars Ray by well-intentioned but ignorant preachers and ministers of the Bible. The dictators of modern religious policy are more responsible for the spread of fear and despair than all the bombs, plagues and military dangers together. There is a terrible dread of The Coming. But exactly WHAT is to come is a question no prophet, no preacher, ignorant of the Message of Mars and its Ruby Rays, can ever answer. We must understand Lucifer! We must cooperate with His Pattern of Personal Perfection, or--we die.

MEETZ-LAH, OR MITLA, AS IT IS POPULARLY CALLED, IS THE ANCIENT TEMPLE OF THE Heart Ray from the planet Venus. Few human eyes have gazed upon this most sublimely beautiful of all the Temples, for it is hidden in the impenetrable jungles of Central America, and known only to tribes of unfriendly natives who inhabit this green wilderness. Stories and rumors of this dazzlingly beautiful cathedral of the Heart have been circulating for years among the people of these tiny republics; but no expeditions have succeeded in finding even the ruins of several of the central Temple's outposts, so selfishly have the spirits of the jungle entwined all entrances to this Lost City, of Meetz-Lah, the Place of the Flame. This should not seem strange, for only in the last twenty-five years have any of the hidden ruins of Central America come into our public knowledge. Only the coming of the air-ship has made it possible for our explorers to discover the few ruins which they, so accidentally, have come upon. Since Meetz-Lah is the Temple of Venus, always associated with beauty, love and faith, it is fitting that this Temple should in all legends be considered the most beautiful of the Twelve Shrines of Light radiating Their glories upon a humanity almost wholly ignorant of the Sources of their very beings, their faculties and powers of self-expression. Venus stands in the exact center of the "Seven Spirits Before The Throne," the Divine Agencies of Consciousness which make us what we are. And holding such a strategic position She is able to exert great influence upon those Temples, or Centers, below her--and above. She, the Goddess of Love, is the paramount power which has guided and sustained all the many civilizations our planet has created and evolved. She is The Great Mother. She is also the Divine Sister, the Beloved Companion who constantly forgives, constantly balances the turbulent forces of the other Six Planetary Rays of Energy.**

THE COSMIC RAYS OF THE DIVINE MOTHER ARE ENFOLDING OUR EARTH AND ALL THE planets of our particular system in a gigantic mantle of sky-blue Light. This Light is projected into the physical bodies of Mankind through the Cardiac Center, just behind the human heart area. Of all the Seven Rays of Cosmic Consciousness, the Cardiac or Venus Ray appeals to more Students than any other. This, apparently, is because of the romantic notions which most people associate with Venus and the heart. Also, the heart has been long associated with the idea of The Christ, usually in the sense of mercy and forgiveness. When the true nature of Venus and Her Ray is properly understood the entire structure of romance and gentleness and insipid tolerance will be vigorously erased---for Venus, in Her Cosmic Consciousness, is a power equally as dynamic, as terrific and overwhelming as Mars, Saturn or the Sun. Our religious wars should give some hint of the terrible possibilities of this sky-blue Ray that moves through the heart.

In some systems, Venus is given as the Feminine Principle, while Mars represents the Masculine. For many purposes such a tabulation is sufficiently accurate to explain our human situation of sex, marriage and family. There is, however, a much deeper aspect of this Venus-Mars duality than Mankind is conscious of. It concerns the great creative ideas of Personality and Individuality. There is a distinct difference between these terms which we must never fail to recognize---if we are to employ these Cosmic Powers, with skill and success. The Personality aspect can be readily observed in the recorded lives of the great courtesans of history, many of whom exerted a profound influence upon the destiny of Mankind: Cleopatra, Pompadour, Lady Hamilton and, very recently, Magda Lupescu of Roumania. The Individuality aspects of a more universal and benevolent character were beautifully illustrated in the lives of Mary of Magdala, Hypatia of Alexandria, Florence Nightengale, St. Theresa and many of the Christian saints. In the amazing woman the world calls Helen Keller we find a remarkable blending of the two Cosmic Aspects, Mars and Venus, Personality and Individuality. Those of you who have seen my painting of her Auric Force-field can easily realize the tremendous potentialities of uniting, or at least harmonizing, these two aspects of Personality, Mars, and Individuality or Venus in one embodiment.

These two Principles of Being make up the standards of social and cultural activities in the Worlds of the Upper Ethers of our own planet, and in most of the other planets of which we have any knowledge. And to a certain extent the Humanity of our earth follows this program of social development. In our earthly civilizations the Personality aspect encompasses most of the peoples of our globe in the sense of membership in a family, community, race or religion. However, any of these essentially primitive, or unevolved, men and women may purchase a superior position, approaching the Individuality of Etheria, if they have the means or cunning. Many do. And their influences are felt, seen and suffered by those unable to pay an equal price and also ascend the social ladder of power and commercial prestige. (You and you and I)

In Etheria such a state of affairs is impossible---since the only medium of exchange is the sense of Personal Awareness; the only influence or authority is the power of the Individualized, or emancipated, Consciousness. Stated in a simpler way: the crew of a Space-ship represent the primitive, unevolved Personality Aspect. The Leader, Captain or Director of these craft is invariably a Being who has risen out of the primitive, unconscious aspect of the Personality and "ascended" into the state of Conscious Individualized Life.

THE TIME OF DAY IN WHICH MARS AND VENUS PROJECT THEIR COSMIC RADIATION IS helpful as a method of analysis to discover more about their peculiar properties. Mars begins its cosmic schedule at Six in the morning and continues till your clock points to Nine. Venus begins her manifestation of healing, soothing radiation at Six in the evening, continuing also until the hour of Nine is indicated on your clock, wherever you happen to be living. (Do not concern yourself, at this point, as to how Mars and Venus, and all the other Cosmic Rays, begin their activities regardless of the differences in time for the several zones of the world. The secret lies in the Sun, which in all cases, establishes the respective hours of day and night.)

The generalized nature of Mar's radiation can be clearly observed as we consider what the masses of Humanity are doing between Six and Nine in the morning. There is very little consciousness of anything except the general and consistent pattern of getting ready for the day's tasks, reaching our places of business or preparing to face another day---as we have faced thousands of such days, tasks, business duties over the years. There is a Personalized quality in such mass action---but nothing of an Individualized state; for in the evening hours of Venus, when we have returned to our homes, or completed our daily chores, and prepare to express ourselves as distinct Identities, only then do we approach the gates of personal freedom from mechanical chores, or the magnetism of Mars.

The evening hours of Six to Nine are a prelude, if so we can see it, to the greater Individualized expression we may reach through Jupiter. Whatever we do in Jupiter's hours of Nine to Midnight will reflect a portion of those habits and currents which touched us during the projection of Mars; but to this is now added the warm radiance of Venus and her beautifying rays of the Individualized Consciousness---preparing to further free itself through the highly expansive magnetism of Jupiter. Hence, we find most people preparing for their parties, receptions, theatres and "night life" which characterizes all great civilizations---and which is almost totally absent in the primitive races whose only contact with Jupiter is through their leader or chief as he lays down the law and regulations of his particular province or village. (And for this exact reason we find few of the diseases, the illnesses of Jupiter in such primitive communities!)

Immediately following the Cosmic Magnetism of Jupiter, which pours out so abundantly from Nine to Midnight, comes the highly psychic radiation of the Lunar currents. Midnight to Three A.M. is the reign of the Moon---and of Lethe and her sister moons---in which forces of an almost indescribable nature and potency are poured forth upon Mankind everywhere. This is the time of death for those people who are strongly dominated by the Cosmic Currents of the Moon---if they have failed to balance or neutralize her devastating magnetism as it produced any of the infirmities associated with too much fluid in the cells of our bodies. Astrologers have long observed how intense are the Lunar currents during these early morning hours; and advise their clients to take special precautions---if they are under severe projections from this psychic center of consciousness revolving around our earth so rapidly. (We have available an excellent summary of the special natures of the Twelve Planets and their Rays, to use as a handbook with these lessons.)

STANDING AS SHE DOES BETWEEN THE THREE LOWER CENTERS OR RAYS AND THE THREE upper chakras, the sky-blue Light of Venus partakes of the colors and the consciousness of the entire cosmic system of principles. This gives Venus a unique ability possessed by none of the other six. It is called Intuition.

Intuition, the Heart Light, is the Ray used by most of the world's people who in any degree believe in things spiritual or divine. Venus is said to be the Path of Love. Now it has been written in thousands of scriptures and inspired verses: "Love conquereth All." And this is Truth. But it is not Love as it is known by the millions who make up the people of our planet. For in the name of Love great suffering is visited upon our people. "Mother Love," for example has been extolled by poets and priests down through the ages. Still, in a most irreverent mood, some wise hand has written: "Mother Love is usually smother-love." This play upon words reveals the hidden undercurrent of ego of pride and selfishness which can so easily be mistaken for genuine affection.

Only the truly Individualized Consciousness can "love as the Christ loves." Only he who is great in the awareness of himself can truly and properly release the dazzling magnificence of the genuine Venus Ray. There is much to be learned from the fact that every Avatar, every World-Teacher, sought in the streets of degradation, the slums, the gutter, for their choice Disciples. And having found these world-weary souls the Messiahs easily and quickly transformed them into radiant examples of the purest Venus Consciousness. Today in our religions and philosophies we honor the ascension of these Disciples from the personalized polarity of Mars into the Individualized Immortality of Venus.

The distorted expression of Venus, so-called human love, is the hidden cause of some of the most hideous afflictions the physical bodies of men and women have ever known. The intellectual, or mental, bodies of these same unfortunate people contain the root of the evil reflecting through the blood and tissues of their flesh instruments. The plight of the prostitute is a terrible one; yet in some respects these unfortunate women, in the sight of 'God' are far more noble than the women who conceal their depraved natures behind the cloak of a marriage-certificate---and who, of course, throw the first stone at prostitutes.

Is it not a curious thing that many of the greatest saints have risen from brothels and conditions of great sensuality? The answer to this lies in the wondrous ability of Venus to lift herself, by her own ankles, out of the mire of Mars, the primitive-personality, up into the sublime estate of one who truly is Immortalized, Individualized, as a completely self-sufficient Unit of Life.

The simplest, quickest, most effective remedy for every Venus malady is, Forgiveness! (Out-giving, projecting, expressing) True Love releases the dynamic Rays of Balance and Harmony in such an abundant measure all discord, disease, is swept before it as simply as the tides sieze the tiny boat and cast it up on the shores of safety and security. Love does not recognize obstacles, as the tides know no resistance. The force of the tides is eternal, perpetual, persistent. So too with the Cosmic Force of Venus. It is infinite, eternal. When it is wisely harnessed to the other Six Principles of our Cosmic Being, Love, Harmony, Balance (all synonyms) is immediately, and eternally, projected in to every atom and cell of our body, being and mentality. And this is The Law of the fabulous Beings visiting our earthly shores from our Eternal Space.

WHEN THE SOUL HAS ACQUIRED A WORKING CONTROL OF THE FOUR PRIMARY OR HUMAN Centers, and has reached a substantial degree of Personalized-Individuality through Mars and Venus, the next step is upward into the Consciousness of a globe which is not accurately considered as a planet but which serves each of the planets as a storage-house, a reservoir of Cosmic Energy and Power. This is the Moon, or Throat Center. This Center is sometimes called the Higher Octave of Saturn; and we are advised by our men of science that at one time the Moon and the Saturn Center were united as one. At that pre-historic time we occupied bodies which were vastly different in appearance to those we now employ for our conscious manifestation of daily life.

Since we will go into the study of the three remaining, or divine, Centers, in THE SHRINES OF LIGHT, we will reserve further comment upon the Moon's own particular vibrations of Cosmic Consciousness for the following brochure. However, some remarks are necessary concerning the strange dimension of the Evolutionary Processes which we are now ready to employ---by virtue of the experiences we have gained through the Lower Quaternary, or human cycle.

After we have begun to develop a genuinely Individualized Sense of Life, by learning to at least function with a definite awareness of our own personal and specific powers as an eternal unit in the midst of a Cosmic Whole, then we inevitably begin to attempt a self-expression which must look to those elements of Mind which manifest through the Upper Triad, or Divine Centers. These elements are usually considered as superior, by the struggling Soul, to those forces of the so-called lower human nature and personality. This is a correct interpretation from the standpoint of the speed and texture, so to speak of the Vibrations of the Upper Triad. But, unfortunately, most human beings immediately begin to exalt or deify those things which seem superior to the human nature. Hence, we constantly observe students speaking of the "Head-Centers" as Centers of some special Divinity; containing more "Spiritual" vibrations than those of the the Root, Spleen and Mars Center, especially. This is sheer idiocy! The Saturn Center at the base of the spine is just as divine, just as spiritual, just as "Christ-like" as the Sun Center at the top of the human head. Until this ridiculous distinction is dissolved in the mind of the student he is forever doomed in his efforts to touch those "Upper-Centers" and release their magnificent qualities and properties.

Like the savage in his jungle village, we deify and exalt those forces we believe are superior to our own. Perhaps most of us have shuddered when we watched the lightening flash and the clap of thunder follow it. And we, in a completely primitive, childish fashion, found it easier to accept that terrific power as a "God-Power" than we did when we heard the soft pattering of tiny raindrops on our roof. It takes a great noise to believe that a god may be making it. Perhaps now, with the advent of the Hydrogen-bomb and its terrible powers we are less afraid of the lightening and its noise---it no longer seems such an impressive thing to witness a summer-storm, and "feel God" as some poetic souls declare. Greater terrors dismiss the lesser. Greater gods destroy the weaker ones. And because some sadly mistaken men have written that The Christ moves through the Head-Centers, alone, students today worship a distinction of Power and Divinity, in their Centers, which is totally false. And this distinction beguiles them to an early grave.

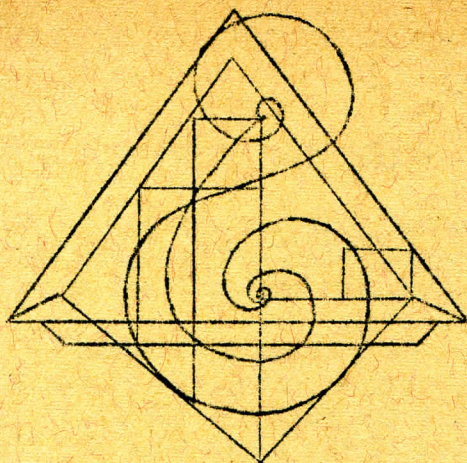

IF YOU TOOK THE TIME TO READ THE SINGLE PAGE OF MY INTRODUCTION, WHICH MOST people do not, you will have read these words: The single, and only, cause of pain, illness, disease and, eventually, death existing in any human body lies in the confusion of the Mind, within that body, about two points. Our minds must consider and contain two statements of Being which seem to be totally contradictory to each other: namely, I am Divine; I am Human. I am God; I am Man. Endeavoring to grasp, and reconcile these two apparently antithetical statements of our essential being, produces the endless series of pains, ills, diseases which characterize our life as mortal men. Eventually, death, or the cessation of this bitter struggle, sets our mind free, for a season.

The great, or once great, mental-science groups have proved beyond doubt that Mankind is willing, ready and able to consider these two fundamental points of our nature as conscious beings possessing not only mind, but mind-to-will.

It is considered a mark of some distinction by certain mentalities to boast that they have never been sick a day in their life; that they do not know what pain is, etc. These types are usually nothing more than a blob of substance, generally fat, with no more consciousness of themselves, or anything, than the animals of the pasture possess. They certainly do not suffer. Indeed they could not suffer. And simply because there is not the slightest concern or conflict in their mind about their essential nature. "I am what I am," is their facetious remark, without concern, without intensity, without consciousness of being anything but an animal---and one utterly contented with life as they live it. But the instant they allow their mind to throw off the inert lethargy, which deadens it, and allow the mind to speculate if, and when, it might become something better than it is---then even these blessed people begin to know pain, illness, disease and---confusion.

This point of awakening comes as the consciousness or mind begins to touch the Cosmic Radiation of the Throat or Thyroid Center, dominated and controlled by the Moon and her sister satellites, Lethe, Lillith, etc. Added to the normal creative ability, which manifests through the Sacral Plexus at the lower end of the human spine, there now begins to awaken the Higher Creative Aspect, or the Divine Impulses that spring from the Moon, the high octave of Saturn, creator of the flesh body. Time was, so we are advised, when we did not possess a straight spinal column. Our spines, and our bodies, were of a round or spherical form---and our sex was dual, complete in itself. In this state we knew only God, or Good. Then came the dramatic arrival of the Spirits of Lucifer (Christian Satan) and we knew ourselves as selves, as men OR women.

Because we, at one time in the long, long forgotten past, WERE completely and utterly Divine, or united with our Creator, we are never able to forget, to erase from our minds this ancient estate of Godhood. Hence, few people, experience any difficulty in accepting, theoretically, the interesting statements of the mental-science groups concerning their basic divinity. However, there is another condition which our "outer" or human minds persistently cast in the way of our "Divine-Idea." It is the belief in the testimony of the outer world, the evidence which insists that we are mortal, human, subject to error, pain and eventually death. Until we can adjust, balance, then blend these two antithetical propositions---we shall continue to suffer and die. (In HIS PERFECT PLAN, last of this series on healing, there will be found the way to so harmonize and blend these ancient ideas, and thus gain our Health.)

The LODGE OF LIGHT

THE GENERAL CONVICTION IS THAT HUMANITY STANDS NOW AT THE BRINK OF total annihilation through atomic warfare. Because of this thousands of Spiritual-Students are preparing to protect their own personal lives and affairs from the inevitable collapse of modern civilization. If war comes again, such a collapse is inescapable.

Assistance and protection from The Etheric Guardians of our earth is our single hope of surviving this Aquarian catastrophe. The skill and genius of these "Masters of the Wisdom" is available to all of us who are realistic enough to read the writing on the walls of our time.

The LODGE OF LIGHT is an assembly of philosophers drawn together by the critical developments in these last days of the Piscean Epoch. Under leadership of GERALD-LIGHT chapters of The Lodge are being founded throughout America. These Centers of Light will provide Occult-Students with a workable knowledge of THE ETHERIANS, or the so-called "Space-Peoples" and Their inter-planetary civilizations.

From these hitherto unknown regions of ETHERIA, surrounding our own earth-plane, help and happiness are being offered to every sincere Student of New Age Principles of Personal Progress and Perfection.

Through the medium of HARMONICS, a series of Occult Instructions received from The Etheric Guardians of earth, The LODGE OF LIGHT offers an immediately useful plan for your progress and protection. These Aquarian Principles of Power are provided in monthly Lessons, Bulletins and Brochures which are available to you upon receipt of written application for membership in Lodge of Light. Admission as a Member of Light is offered without charge or dues or donations. HARMONICS literature is available at one dollar per monthly lesson.

NOTE: The geometrical figure at the top is the Great Seal of the Lodge of Light. This Astral Sigil was first devised in 1256 by Albertus Magnus, the renowned alchemist-philosopher. It is used today by his lineal descendant in The Lodge of Light in America.

HARMONICS

HARMONICS IS THE MODERN APPLICATION OF THE ANCIENT WISDOM RELIGION OF ETHERIA.

The Science of HARMONICS has, as one of its major goals, an attempt to raise the whole of Reality to one Basic Formula. It seeks to include both the human and the Divine Nature within the framework of a unified mathematical system.

A study of this all-inclusive System enables us to understand what "God" is now waiting to do for us, and shows us how to co-operate with Life to achieve the ultimate goal of all human endeavors, that is: the Union of the lower nature with the Higher Self, a literal transmutation of the human into the Divine.

The word HARMONICS will henceforth serve to identify this special and specific movement of The Etheric Brothers as one of Their major channels of Instruction for the remainder of this Century of Uncertainty in our solar system.

The Philosophic System of HARMONICS shows us the proper relation of all the parts to the whole. It pinpoints our place, as future Initiates, in the entire Evolutionary Pattern and Program of the Divine-Mind-Heart-Spirit.

HARMONICS provides us, further, with a Method for Self-development that will surpass our present state of consciousness and limited human activities. At this point the scientific aspect of HARMONICS gives way to the ART of HARMONICS, as we put into practice its formulae; and become individual creators.

If the Harmonic Formula is applied the results are certain to be achieved. The time element will depend upon the intensity of the Desire and the strength of the Personal Will, in each Student of this Modern Science of Balance.

The Science and Art of HARMONICS is two-fold in its action: It seeks first to harmonize the Individuals lower nature with his Higher Self. By so doing it will eventually harmonize the affairs of communities and nations.

FIRST, each of us must harmonize and balance our own personal worlds and lives. Then, and not until then, will world balance and harmony be achieved! Your problems thus become the problems of Humanity. And, more importantly, the trials of Humanity become part of your personal responsibility and concern. HARMONICS is thus the answer to your problems. And HARMONICS is also the solution of the worlds problems--since each of us make up the complete world.

HARMONICS IS THE CHANNEL OF LIGHT FROM THE ELDER BROTHERS OF UPPER-ETHERIA (And HARMONICS is the open doorway into your own personal, eternal Freedom.)

The thirty-six Lessons in HARMONICS, together with the Brochures & Bulletins, are sufficient to establish your life and affairs on the changeless foundations of the Harmonic Law of Personal and Individual Balance. And this is Perfection.

GERALD LIGHT

(OF LONDON)

GERALD LIGHT IS A PROPHET OF THE NEW AGE IN THE BEST TRADITIONS OF the great mystics. Author of many books on philosophical subjects he is, however, best known for his remarkable paintings and pictures of the Astral Kingdoms and their Beings of Light.

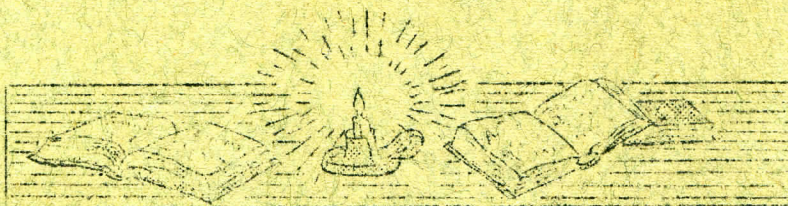

As an intermediary between the Inner and outer worlds, GERALD LIGHT has won great distinction in Europe and The Far East for his high purpose and spiritual integrity as a Messenger of the Spirit.

Through the medium of his LIGHT LECTURES this modern mystic brings to the Students of America a new vision of Spiritual Wisdom and Metaphysical Knowledge. The LIGHT LECTURES have aroused immediate interest from the great body of Spiritual Students who believe that the warlike demands of the present age require greater Instruction in the Divine Mysteries than has been offered by most teachers.

Through Spirit-Pictures and Astral-Images, given to him by Those Great Teachers in the Invisible, GERALD LIGHT has entertained vast audiences from coast to coast---and offered personal Instructions to the comparatively small body of earnest Workers in the Truth.

FOR YOUR INFORMATION, BORDERLAND SCIENCE RESEARCH ASSOCIATES SAY: "GERALD LIGHT has given Mankind the most concise piece of Occult information since Ancient Times." The Mark Probert Controls say: "We did not know there was anyone capable of receiving such laws and making the right use of it" (until G.L. gave it to the world.)

For those of our friends who have not heard GERALD LIGHT, of London, there is a delightfully different experience in store for you. For with no ballyhoo whatever this distinguished mystic, author and artist has rapidly won a respected place in the ranks of America's outstanding teachers. His is a Great Aquarian Voice of Courage.

THE JOURNALS OF GERALD LIGHT.

THESE REMARKABLE WRITINGS OF GERALD LIGHT ARE BEING OFFERED TO the public for the first time since their author began to set down his experiences in a combination of code and short-hand some forty years ago when he inaugurated his spiritual ministry in East China. To date approximately fifty journals have been compiled for use in his private study-classes. The three brochures described below are composed of extracts from this monumental collection of metaphysical experimentation.

SIGNS IN THE SKIES: In this Spirit-inspired Message, GERALD LIGHT tells what the Invisible World, the Realm of Spirit, has to say in regard to the ever-increasing threat of World War Three. For the first time we learn from authentic Spiritual Sources the meaning of the incredible Coming of The Space-People, with all the strange manifestations of Flying Saucers, etc., in our skies.

SPIRIT SPEAKS: With majestic authority seven Great Voices speak to us from the Realms of Spirit; and give a brilliant account of the pilgrimage of GERALD LIGHT and his staff through the deep South. Astonishing communications are presented for comfort and instruction by Franklin Roosevelt, Rockefeller, Mahatma Gandhi, The Great Cheiro, and The Celestial Voice of the City-of-Sun. Unquestionably the most important communications of our age.

HIS HEALING HEART: The results of a half-century of searching in every land and legend of the earth for The Perfect Pattern, the Magic Method of the Master Healing. In the rapidly dawning age of Aquarius this new and revolutionary method of the Perfect Healing Prayer will undoubtedly take its place in the forefront of Great Aquarian Achievements of Gerald Light and his Ministry.
